

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

The Browne & Nichols School for Boys,

7 Garden St. and 9 Appian Way, Cambridge, Mass.

THE SCHOOL receives boys not younger than nine in the grammar grade, and offers them the advantage of a continuous course of eight years under the same instructors. French is begun at once; Latin, in the second year; Algebra or Constructional Geometry is introduced in the grammar grade. In the Science teaching, which begins with the youngest boys, advantage is taken of the many valuable collections at Harvard, while much assistance is gained from frequent excursions into the country.

The school house was built last year under the supervision of the principals, to meet the wants suggested by eleven years of experience in teaching. The utmost care was taken to secure the most approved ventilation and abundance of light, and to provide facilities for the best work in each department. The building is equipped with Chemical and Physical Laboratories and a Conservatory. There are new baths, hot and cold, for the Gymnasium.

Preparation is afforded for College or Scientific School by any of the various methods.

The 13th year of the School begins September 26th, 1895.

A home for seven boys, under the control of the principals, at No. 8 Garden St., opposite the Common, in one of the most healthful and attractive parts of Cambridge.

Catalogues, giving terms, course of study, etc., sent on application.

EDITOR'S PREFACE.

- - - - -

THE primary purpose of this Handbook of Graduate Courses is to furnish in compact form accurate information that will be sought for by advanced students. If that result is attained, the Handbook justifies its existence. Such students will consult it to learn what institutions and what professors offer courses in the subjects they wish to pursue; what has been the academic career of those professors; what amount of time is asked for each course; what numbers of Graduate Students have been registered in the specified departments; what fees are required of Graduate Students; what Fellowships, Scholarships, and other pecuniary aids are open to them; what requirements for admission to advanced courses and for advanced degrees are imposed, etc., etc.

It is hoped that officers of administration and instruction,—in fact, all persons interested in the development of graduate study in America — will also find its pages interesting and valuable.

The reader is asked to bear in mind that the editors have not sought to include all Graduate Courses offered in America, nor attempted to give details as to the courses herein presented. In the first place, the intention has been to omit all purely professional work. In the next place, the Handbook has been and is a growth. The edition of 1893 included eleven institutions, while this includes twenty-one, and future issues may be gradually enlarged in scope. For all details the reader is referred to the full announcements published by the several colleges and universities and freely sent to all applicants.¹

¹The introductory sketches in the following pages give the names and addresses of the officers to be addressed for further information.

The sketch of the proceedings of the "Convention of Graduate Students" on a subsequent page sufficiently explains the present status of the Handbook.

Dealing with so many technical and complicated matters, and prepared in very great haste in order that it might appear in time to be useful to intending students, such a compilation cannot be expected to be free from errors. As to many points, repeated inquiries have failed to elicit desired information. The Editor regrets that the tardiness of four or five universities in furnishing copy has delayed the publication of the Handbook beyond the announced date, and has also made it impossible to secure the desired degree of careful revision by Assistant Editors.

Criticisms and suggestions looking to the future improvement of the Handbook are invited, and may be addressed to C. A. Duniway, Editor-in-Chief, Cambridge, Mass.

THE GRADUATE CLUBS.

Several Graduate Clubs have been organized during 1894-5. It has come to be generally recognized that a Graduate Club is of very great value in any university doing graduate work, giving, as it does, a common social center for the advanced students in all lines of work, and affording a pleasant means of personal contact between students and professors. The Convention held in New York City last April was an evidence of the active spirit of coöperation subsisting between the several Clubs. The length of the list of officers here presented shows the great growth of Graduate Clubs since the organization of the first one (at Harvard) in 1889.

Association of Graduate Students of Brown University.

Organized in 1890.

Pres., W. H. EDDY, Brown.

Treas., A. T. SWIFT, Brown.

Sec., MARY E. WOOLEY, Brown.

Cor. Sec., A. C. ELY, Brown.

Bryn Mawr Graduate Club.

Organized in 1893-4.

Pres., F. S. CONANT, Williams. *Sec.*, C. C. SCHENCK, Johns Hopkins.
Treas., J. A. C. CHANDLER, William and Mary.

The Graduate Club of Leland Stanford, Jr., University.**Organized in 1895.***Executive Committee.*

Pres., J. C. KIRTLAND, Jr., Hobart. G. A. CLARK, Minnesota.
V. Pres., M. ADAMS, Leland Stanford, Jr. W. B. CLARK, Leland Stanford, Jr.
Sec.-Treas., ORPHA E. LEAVITT, Doane. C. W. GREENE, Leland Stanford, Jr.
 JESSICA S. VANCE, Univ. of Pacific.

The Graduate Club of the University of Michigan.

Organized Jan. 20, 1894.

Executive Committee.

Pres., CHAS. F. EMERICK, Wittenberg. *Sec.-Treas.*, DANIEL B. LUTEN, Michigan.
V. Pres., MARY G. WILLIAMS, Michigan. ANNIE S. THOMPSON, Michigan.
IRA D. TRAVIS, Albion.

The Graduate Club of The University of Pennsylvania.

Organized in October, 1893.

Pres. ex-officio, ACTING PROVOST *1st V. Pres.*, J. H. PENNIMAN, Univ. of Pa.
C. C. HARRISON. *2d. V. Pres.*, LEO S. ROWE, Univ. of Pa.
Sec., OSCAR GERSON, Cent. High School, Phila.

The Graduate Club of Radcliffe College.

Pres., MARY COES, Harvard Annex. *Sec.*, MRS. F. W. PATTERSON, Wesleyan.
Treas., FRANCES C. GOODWIN, Smith.

The Graduate Club of Vanderbilt University.

Organized in 1894-5.

Pres., W. C. BRANHAM, Vanderbilt. *Sec.*, A. D. KELLAR, Heidelberg.
V. Pres., J. REECE LIN, Emory. *Treas.*, T. D. MCINTYRE, Ky. Wesleyan.
Executive Committee.

D. T. WILSON, Univ. of N. C., C. T. KIRKPATRICK, Vanderbilt, EDWIN L. JOHNSON,
Univ. of Miss.

The Graduate Club of Western Reserve University.

Organized March 14, 1895.

Hon. Pres., DEAN R. W. DEERING. *V. Pres.*, MARY C. NOYES, Iowa State Univ.
Pres., W. J. JACOBS, Adelbert. *Sec. Treas.*, A. H. MABLEY, Adelbert.
Executive Committee.

W. J. JACOBS, MARY C. NOYES, A. H. MABLEY, C. W. STAGE, C. T. HICKOK.

The Graduate Club of the University of Wisconsin.

Organized May 22, 1895.

Pres., O. G. LIBBY. *Sec.*, MYRON E. BAKER.
V. Pres., FLORENCE P. ROBINSON. *Treas.*, JESSIE GRIFFITH.
Executive Committee.

EDWARD P. CARLETON, JOSEPH F. MORSE, KATHERINE ALLEN, G. ADOLPH
GERDTZEN.

Convention of Graduate Students.

ADDRESS TO GOVERNING BOARDS OF AMERICAN UNIVERSITIES.

ON the initiative of the Harvard Graduate Club, graduate students, representatives from the nineteen colleges and universities whose courses appeared in the Handbook of Graduate Courses for 1894-5, were invited to come together in New York City on April 16th last. The Convention which met on that date was composed of twenty-two delegates representing sixteen colleges and universities.

The general purposes of the Convention were these: (1) To establish the Handbook of Graduate Courses upon a more satisfactory basis and to obtain a more general coöperation in its editorial management. (2) To consider conditions of graduate study in America, particularly the subjects of intermigration and maintenance of standards for degrees. (3) In general, to advance the interests of higher education by bringing together graduate students from all parts of the country for discussion of topics of common interest.

The first work of the Convention was to recommend the continued issue of the Handbook of Graduate Courses and to formulate a plan for its publication. In accordance with that plan an Editor-in-Chief was immediately elected. Each contributing college and university was asked to designate a resident graduate student to prepare its matter for the Handbook and to be the representative of the institution on the Board of Assistant Editors. Control

of the Handbook was vested in the Editor-in-Chief and this Editorial Board.

The second session of the Convention was occupied by discussions upon (1) intermigration of graduate students; (2) maintenance of standards for advanced degrees. A striking unanimity of opinion upon both these matters was developed during the proceedings. In the belief that well-considered expressions of opinion from a representative gathering of graduate students would prove useful in advancing the interests of graduate study in America, the Convention adopted a series of resolutions and embodied them in the following:

ADDRESS TO GOVERNING BOARDS OF AMERICAN UNIVERSITIES.

A Convention of Graduate Students,¹ representatives of Barnard, Brown, Bryn Mawr, Chicago, Columbia, Cornell, Harvard, Johns Hopkins, Michigan, Pennsylvania, Radcliffe, Vanderbilt, Western Reserve, and Yale, held at New York City on April 16th, 1895, adopted the following series of resolutions, which they wish to submit to Boards of Trustees, to Faculties, and to the University public:

1. That only those who have obtained a bachelor's degree from some reputable college, or who furnish proofs of fully equivalent attainments, should be eligible as candidates for the degree of Doctor of Philosophy.
2. That the degree of Doctor of Philosophy should be granted only after the completion and publication of a thesis embodying results of original investigation.
3. That regulations should be modified to facilitate the intermigration of Graduate Students, and that accordingly not more than one year of residence should be required in the university where the degree of Doctor of Philosophy is conferred.
4. That the giving of the degrees of Master of Arts, Doctor of Philosophy, Doctor of Science, Doctor of Letters, *honoris causa*, is to be condemned, and that the granting of these degrees *in absentia* is very much to be deprecated.

¹ California, Minnesota, Stanford, and Wisconsin, although sympathizing with the purposes for which the Convention was called, did not send delegates. Clark and Princeton, being represented only by members of their Faculties, did not join in the adoption of these resolutions.

INTRODUCTION.

BARNARD COLLEGE.

Barnard College duplicates for women the undergraduate course of Columbia and registers graduate students for work under the University Faculties. All degrees are conferred by Columbia. Students have full privileges in the University Library. Seniors and graduate students attend lectures at Columbia under the Faculty of Philosophy. Graduate instruction under the Faculties of Political Science and Pure Science is given at Barnard. All general academic statements made by Columbia apply equally to Barnard. EMILY JAMES SMITH, Dean. Address Mrs. N. W. LIGGETT, Registrar, New York City.

BROWN UNIVERSITY.

The University was founded by the Philadelphia Baptist Association in 1764, the first Commencement being held in September, 1769. For the year ending April 15th, 1894, the endowment yielding interest was \$1,089, 118.66. The income for current expenses, exclusive of special funds, etc., was \$115,957.72. Degrees were first granted to graduates from the Graduate Department in 1889. The advanced degrees of Master of Arts and Doctor of Philosophy are conferred. By a graduate course is meant one primarily intended for those who have already attained one of the academic degrees. Women are admitted on the same terms with men; but undergraduates are instructed in separate classes.

The year begins on the third Wednesday in September, is divided into three terms, and ends the third Wednesday in June. E. BENJAMIN ANDREWS, President. Address FREDERICK T. GUILD, Registrar and Secretary of the Faculty, Providence, R. I.

BRYN MAWR COLLEGE.

Founded in 1880 with the endowment of Dr. Joseph W. Taylor, the College opened in the fall of 1885. The realized endowment, outside of buildings and grounds, is about \$1,000,000. The College is an "institution for the advanced education of women." It admits these classes of students: graduates, undergraduates, specials, and hearers. Special students must have passed the examination for matriculation. Hearers attend courses on the consent of the several instructors and receive certificates from them only. The Graduate Department was organized in 1885. Degrees of Master of Arts and Doctor of Philosophy are granted. A graduate course is one which presupposes a minor, major and post major undergraduate course (*i. e.*, three years of undergraduate instruction), and to which only students that have the A. B. degree, or its full equivalent, are admitted.

The year is divided into semesters. For 1895-6 the first begins on October 1st, and the second on February 10th. M. CAREY THOMAS, President. Address MADELINE VAUGHAN ABBOTT, Secretary, Bryn Mawr, Pa.

UNIVERSITY OF CALIFORNIA.

Founded by an Act of the Legislature in 1868. The University is a State institution, having an income of about \$300,000. Graduate instruction has been carried on since

1874. The following advanced degrees are granted: Master of Arts, Master of Letters, Master of Science, Doctor of Philosophy. Graduate courses are devoted entirely to advanced work. They presuppose a full undergraduate training, and are chiefly intended to develop professional scholars and specialists who shall be able to carry on original research. Women are admitted on equal terms with men.

The year is divided into two terms. For 1895-6 the terms extend from August 12th to December 21st, and from January 11th to May 16th. MARTIN KELLOGG, President. Address JAMES SUTTON, Recorder of the Faculties, Berkeley, Cal.

UNIVERSITY OF CHICAGO.

Founded by John D. Rockefeller in 1890, the University was opened October 1st, 1892. The realized endowment at the end of the last fiscal year was \$2,900,000. The income was \$370,000. Assets of the University, including funds subscribed and those now in hand, exceed \$7,000,000. The Graduate School was organized in 1892. The degrees of Master of Arts, Master of Science, Doctor of Philosophy, and Doctor of Science, are granted, and may be conferred at the end of any quarter. No definition of a graduate course is given. Most advanced courses are open to suitably prepared juniors and seniors, as well as to graduates. Women are admitted on the same terms with men.

The year is divided into quarters beginning on the 1st of July, October, January, and April. WILLIAM R. HARPER, President. Address THE UNIVERSITY EXAMINER. Chicago, Illinois.

CLARK UNIVERSITY.

Founded in 1887 by Jonas G. Clark, the University was opened in October of 1889. It admits only graduate students, and confers only one degree, that of Doctor of Philosophy. Its courses presuppose a knowledge of what is usually required by the best colleges in each department as a condition of the degree of A.B. Women are not admitted.

The year begins October 1st. G. STANLEY HALL, President. Address LOUIS N. WILSON, Clerk, Worcester, Mass.

COLUMBIA COLLEGE.

Founded in 1754 by a charter from George II, and originally called "Kings College." The receipts for the last fiscal year were \$747,635, expenditures \$717,937. Reorganized in 1890 after the pattern of the German Universities. Five University Faculties were formed, including those of the School of Political Science and the School of Philosophy, to which has since been added the School of Pure Science. Degrees of Master of Arts and Doctor of Philosophy are granted. A graduate course is any course offered by the University Faculties of Political Science, of Philosophy, and of Pure Science, to students who have the A. B. degree or its equivalent. Most of these courses, however, are open to properly qualified seniors of the School of Arts. Women, by matriculating at Barnard College, may enjoy practically all the advantages of Columbia.

The year is divided into two terms. For 1895-6 these begin October 1st and February 10th. SETH LOW, President. Address THE SECRETARY OF THE PRESIDENT, New York City.

CORNELL UNIVERSITY.

Founded in 1865, and endowed with New York's apportionment of public lands under the Morrill Land Grant Act, in addition to large gifts from Ezra Cornell, the University was opened in 1868. For the year ending August 1st, 1894, the endowment was \$8,804,712.72 and the income \$608,291.11. Graduate instruction has been given since 1868, the first advanced degree being conferred in 1870. There is no separately organized Graduate Department, the work being in charge of a Faculty Committee on Graduate Work. Degrees of Master of Arts, Master of Philosophy, Master of Letters, Master of Science, Doctor of Philosophy, and Doctor of Science, are conferred. Cornell does not define a graduate course. Most of the elective courses are open to both graduates and undergraduates. Women are admitted on the same terms with men.

The year is divided into three terms. For 1895-6 it begins September 23d. JACOB GOULD SCHURMAN, President. Address D. F. Hoy, Registrar, Ithaca, N. Y.

HARVARD UNIVERSITY.

Founded in 1636 by the vote of the General Court of Massachusetts. The realized endowment at the close of the fiscal year 1893-4 was \$8,367,268.72. Income was \$1,054,484.17. The Graduate Department was organized in 1872. The degrees of Bachelor of Arts, Master of Arts, Doctor of Philosophy, and Doctor of Science, are open to such students in the Graduate School as have been accepted

as qualified for candidacy. The Faculty of Arts and Sciences distributes its courses into three groups, those intended primarily for Undergraduates, those for Graduates and Undergraduates, and those primarily for Graduates. The courses in the middle group are largely recommended to Graduate Students. The policy of the University is to draw no hard and fast lines between the groups, but to admit into any course students qualified to pursue it, irrespective of their academic standing. Women are not admitted; but many courses are open to Radcliffe Graduate Students.

The year is divided into two half-years. For 1895-6 these begin September 26th and February 10th. CHARLES WILLIAM ELIOT, President. Address RICHARD COBB, Asst. Secretary, Cambridge, Mass.

JOHNS HOPKINS UNIVERSITY.

Founded in 1867, through the munificence of Johns Hopkins, lectures being first delivered in 1876. Expenditures in 1890-1 were about \$170,000. University instruction is offered to advanced and graduate students whether candidates for a degree or not. The only advanced degree conferred is Doctor of Philosophy. The aim of graduate courses is "that while a student is becoming familiar with the work prosecuted and the results obtained elsewhere, and is adding to his general culture, he may be encouraged to become himself an independent and original investigator in his chosen field of labor." While the University does not exclude women, the number in attendance has been small.

The year is divided into two terms, beginning in October and February. D. C. GILMAN, President. Address T. R. BALL, Registrar, Baltimore, Md.

LELAND STANFORD JUNIOR UNIVERSITY.

Founded in 1885 by Hon. Leland Stanford and Mrs. Jane L. Stanford, the University was first opened to students in October, 1891. Income of the last fiscal year was about \$200,000. The advanced degrees of Master of Arts, Master of Science, Doctor of Philosophy, Doctor of Science, are conferred. A graduate course is work accepted for an advanced degree in the department offering the course. Women are admitted to all courses on the same footing with men.

The year is divided into two semesters, beginning early in September and January. DAVID STARR JORDAN, President. Address O. L. ELLIOTT, Registrar, Stanford Univ., California.

UNIVERSITY OF MICHIGAN.

Founded in 1837, by an Act of the Legislature of Michigan, as a part of the public instruction, the first of its Departments was opened in 1841. Its endowment is \$540,000. The income of the last fiscal year was \$445,272.46. The Graduate School was organized in 1892. The degrees of Master of Arts, Master of Science, Master of Philosophy, Master of Letters, Doctor of Philosophy, Doctor of Science, and Doctor of Letters, are conferred. No definition of a graduate course is given, but no elementary work in any subject is allowed to count as graduate work. Women are admitted on the same terms with men.

The year is divided into two semesters, beginning about October 1st and February 15th. JAMES B. ANGELL, President. Address PROF. P. R. DEPONT, Registrar, Ann Arbor, Michigan.

UNIVERSITY OF MINNESOTA.

Originally organized by an act of the Territorial Legislature in 1851, the University was made the "State University" in 1857. It was reorganized in 1864, 1868, and 1872. Instruction in the college classes was first given in September, 1868. The annual income is about \$225,000. The Graduate Department was organized in 1895-6. The following advanced degrees are conferred: Master of Arts, Master of Science, Master of Literature, and Doctor of Philosophy. By a graduate course is understood a continuous systematic pursuit of some topic not offered to undergraduates and of a more advanced character than work required for a bachelor's degree. Women are admitted on the same terms with men.

The year is divided into three terms. For 1895-6 these begin September 10th, December 3d, and March 9th. CYRUS NORTHROP, President. Address JABEZ BROOKS, Minneapolis, Minn.

UNIVERSITY OF THE CITY OF NEW YORK.

Founded in 1831, instruction being begun in 1832. The endowment at the end of the last fiscal year was \$2,600,000. The income was \$135,000. The Graduate Seminary was organized in 1886. Degrees of Master of Arts, Master of Philosophy, Master of Science, Doctor of Philosophy, and Doctor of Science are conferred. By a graduate course the University means specialized work by a graduate student under the direction of a professor in such amount as may fitly occupy about one half of the student's time for an academic year. Women are admitted to the classes of the Graduate Seminary on the same terms with men.

The year consists of eight months of work, with no intermission, and begins October 1st. HENRY M. MACCRACKEN, Chancellor. Address THE REGISTRAR, Washington Sq., New York City.

UNIVERSITY OF PENNSYLVANIA.

Founded as the Charitable School in 1740, and becoming the "College and Academy of Philadelphia" in 1751, it was amalgamated with the University of the State of Pennsylvania under its present title in 1791. The Graduate Department (under the title "Department of Philosophy") was organized November 17th, 1885. The degrees of Master of Arts, Master of Science, and Doctor of Philosophy, are conferred. Courses in the Department of Philosophy are entirely distinct from the undergraduate work, and are such as are not represented at all in the undergraduate work. The Graduate Department for Women is an integral part of the Department of Philosophy. The courses are given by the same instructors and lead to the same degrees. Admission is on the same terms as for men.

The year is divided into two terms. For the Department of Philosophy these begin in October and February. CHARLES C. HARRISON, Acting Provost. Address WILLIAM A. LAMBERTON, Dean of the Department of Philosophy, Philadelphia, Pa.

PRINCETON.

COLLEGE OF NEW JERSEY.

Founded in 1746. A second and more ample charter was obtained in 1748, and this was confirmed and renewed after the Revolution. Every instructor in the College may, with

the consent of the Faculty, give instruction to graduates. The degrees of Master of Arts, Master of Science, Doctor of Philosophy, Doctor of Science, and Bachelor of Divinity are conferred. In addition to the courses open to graduates only, many of the courses of the Senior year and some of those of the Junior year are also open to them. These are not courses which are given for their disciplinary value, nor are they usually courses in which a subject is begun. They may be offered by a candidate for the degree of Master of Arts or Master of Science. Women are not admitted.

The year is divided into two terms. For 1895-6 these begin September 18th and February 6th. FRANCIS LANDEY PATTON, President. Address PROF. W. F. MAGIE, Princeton, N. J.

RADCLIFFE COLLEGE.

Radcliffe College, the successor of the Society for the Collegiate Instruction of Women, offers systematic collegiate instruction to women under the professors and other teachers of Harvard University. The requirements for admission are identical with those for admission to Harvard College. The courses of instruction given in Radcliffe College correspond to both undergraduate and graduate courses offered by Harvard University; and are more than sufficient to enable a woman to perform the work required by the University for the degrees of Bachelor of Arts and Master of Arts. In addition to these, graduate students in Radcliffe College now have access to fifty-four graduate courses in Harvard University. The examinations are the same in both institutions, and the diplomas conferring the degrees of A. B. and A. M. are countersigned by the President of Harvard University as a guarantee that these degrees are equivalent to the corresponding degrees given by the University.

The arrangement of the academic calendar corresponds to that of Harvard. AGNES E. IRWIN, Dean. Address MARY E. COES, Secretary, Cambridge, Mass.

VANDERBILT UNIVERSITY.

Founded in 1873 by the munificence of Cornelius Vanderbilt. The endowment at the end of the last fiscal year was \$900,000. Income was \$63,000. Graduate work has been carried on from the beginning. Degrees of Master of Arts, Master of Science, Doctor of Philosophy, and Doctor of Science are conferred. Any course is considered as graduate work which extends beyond the requirements for a bachelor's degree, and which can be counted on higher degrees. All advanced courses are open also to suitably prepared undergraduates. Women are admitted "students by courtesy." They are not formally matriculated but are recommended for degrees by the Faculty, on completion of course.

The session begins on September 18th, and ends June 17th. J. H. KIRKLAND, Chancellor. Address WILS WILIAMS, Secretary, Nashville, Tenn.

WESTERN RESERVE UNIVERSITY.

Founded in 1826 as Western Reserve College. The interest bearing funds are over \$1,000,000, its property being valued at \$2,200,000. In 1894-5 receipts from funds were \$100,000. The Graduate School was established in 1892. Degrees of Master of Arts and Doctor of Philosophy are conferred. All courses open to Graduate Students are considered graduate courses, but starred courses are

open to them only as minors. The College for Women is a Department of the University, and women are admitted to the Graduate School on the same terms with men.

The year is divided into two terms, of which the first will begin September 19th, 1895, and the second February 10th, 1896. CHARLES F. THWING, President. Address R. W. DEERING, Dean of Graduate School, Cleveland, O.

UNIVERSITY OF WISCONSIN.

Founded by the State in 1849 and reorganized in 1866. The expenditures for 1893-4 were \$393,734.60. Income for 1894-5 is \$364,759. The Graduate Department, which had hitherto consisted mainly of advanced courses given in connection with the various schools, was separately organized in 1895. The degrees of Master of Arts, Master of Letters, Master of Science, and Doctor of Philosophy are conferred. Graduate courses are especially intended to encourage research and graduate instruction in the several departments presupposes generally the full undergraduate courses—required and elective—in such departments. Women are admitted on the same terms with men.

The year is divided into semesters. For 1895-6 these begin September 26th and February 10th. CHARLES KENDALL ADAMS, President. Address W. G. Hiestand, Registrar, Madison, Wis.

YALE UNIVERSITY.

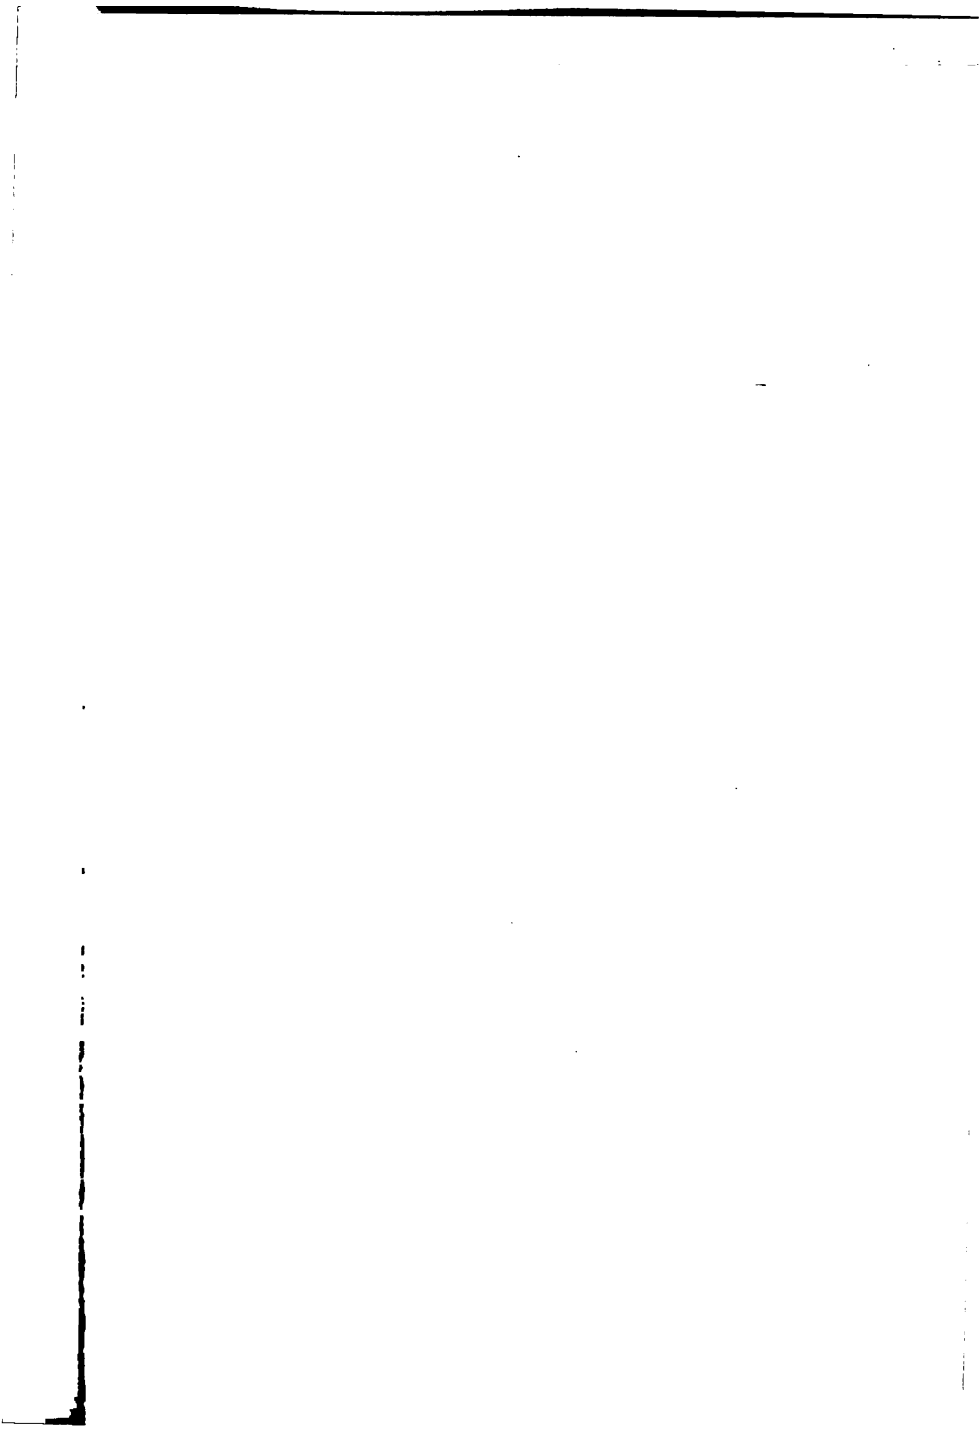

Founded in 1701 by a charter from the General Court of Connecticut, which endowed the college with an annual grant. Funds, exclusive of grounds, buildings and collec-

tions, in 1893 amounted to more than \$4,000,000. Expenditures in 1892-3 were over \$650,000. Graduate instruction was definitely organized in 1847. The advanced degrees of Master of Arts and Doctor of Philosophy are conferred. A graduate course is one of a character sufficiently advanced to entitle it to be credited in work for the degree of Doctor of Philosophy. Women are admitted on the same terms with men to courses leading to the Doctors' degree.

The year is divided into two terms. For 1895-6 these begin September 26th and January 7th. TIMOTHY DWIGHT, President. Address ANDREW W. PHILLIPS, Dean of Graduate Department, New Haven, Conn.

COURSES FOR WOMEN.

The provision for the advanced instruction of women made by the institutions included in this handbook is sufficiently indicated in the foregoing paragraphs; but it is worthy of remark that Clark and Princeton are the only universities of the number which give no instruction whatever to women.

1

EXPLANATORY.

The plan of these lists of Graduate Courses was: (1) to use convenient general titles for grouping courses on related subjects; (2) to mention special facilities in each department of the several institutions, with the fellowships and scholarships open to graduate students; (3) to state the numbers of graduate students who took courses in each department during 1894-5; (4) to present brief statements of the collegiate experience of instructors, with some of the subjects on which they have published; (5) to give all the advanced courses definitely offered by each instructor, using short titles, and indicating the amount of time required for each course; (6) to enclose in brackets all courses not to be given in 1895-6; (7) to mark with the asterisk courses open also to undergraduates; (8) to bring all the work of each instructor into a form for ready reference by an index of names.

Difficulties of classification have been met (to some degree at least) by the cross references under many department headings. The omission of biographical facts (*e.g.*, in the English Department of Harvard), and of notes on special facilities, has been by request in some cases; in others, it has been due to the very great difficulty of getting information within a limited time.

The figures of the numbers of graduate students in the several departments may be misleading if not properly interpreted. A graduate student may have taken courses in two or more departments — such student counts once in each of those departments. Except in the case of Columbia (and in certain cases for Yale and Vanderbilt, noted in Addenda), the absence of figures means there were no graduate students during 1894-5 in a particular group of courses. Some Assistant Editors found much trouble in getting the registration in the form demanded by the Handbook, and at Columbia the figures were not obtained at all.

A similar caution must be given as to the interpretation of the asterisk. Assistant Editors were asked to mark with the asterisk "courses open also to undergraduates." The responses disclosed almost irreconcilable differences of usage. "Graduate work" in each institution is conditioned by local plans of administration, as well as by the previous preparation of graduate students. Yet on the whole it has seemed best to retain the asterisk, even at the risk of suggesting unjustified comparisons, for the purpose of making clear to graduate students that certain courses are not designed primarily for them.

Following the brief title of a course are usually the number of hours per week (in small Roman) and number of weeks of appointment with instructor (in

numerals). One or more dashes, with a mark of interrogation, call attention to absence of this information. Unless months are given, a course usually extends from September or October to May or June (inclusive).

Bracketed courses, not given in 1895-6, usually may be expected in 1896-7.

The abbreviations for the names of the months are as follows: Ja., F., Mar., Ap., My., Jun., Jul., Au., S., O., N., D.

ADDENDA.

NUMBERS OF GRADUATE STUDENTS.

Chicago had, in 1894-5, 13 Graduate Students who took courses in Semitic; 3 in Biblical Greek; 21 in Sanskrit; 61 in Greek; 78 in Latin; 91 in English.

Vanderbilt had, in 1894-5, 2 Graduate Students who took courses in Semitic Languages and Literatures.

Yale had, in 1894-5, 5 Graduate Students who took courses in Semitic Languages and Literatures; 3 in Indo-Iranian Languages and Literatures; 16 in Classic Languages and Literatures; 14 in English Language and Literature.

OTHER LATE INFORMATION.

Edwin V. Morgan, A.M., Harvard, '91, will give the courses in History at Western Reserve, not assigned to an instructor. See page 65.

Samuel W. Johnson, Prof. of Theoret. and Agricult. Chem., A.M., Yale, '57, offers the following courses:

Chem. Physiology of Vegetation. ii, O.-D.

Agricult. Chem. ii, Ja.-Jun.

Dr. Charles J. Bullock will give the courses in Economics at Cornell, not assigned to an instructor. See page 72.

ERRATA.

Bryn Mawr Fellowships amount to \$525, not \$550. See pages 10, 21, 31, 36. Vanderbilt courses on page 6 should be marked with an asterisk.

Cornell's elementary course in Sanskrit on page 8 should be marked with an asterisk.

Theory of Functions. iii, S.—Ja.
Quaternions. iii, F.—Jun.
*Differential Equations. iii, S.—Ja.
*Projective Geometry. iii, F.—Jun.

WISCONSIN.

3 Graduate Students, 1894-5.

CHARLES A. VAN VELZER, Prof. of Math.

B.S., Cornell, '76; Instr. in Math., same, '76-7; Fel. in Math., Johns Hopkins, '78-'81; Ph.D., same; Instr. in Math., Wisconsin, '81; Asst. Prof., '83-5.

- *Adv. Calculus. ii, 19, S.-F.
- *Differential Equations. iii, 38.
- *Analyt. Geom. of two Dimensions. iii, 38.
- *Analyt. Geom. of three Dimen. ii, 38.
- *Modern Algebra. ii, 38.

CHARLES S. SLICHTER, Prof. of Applied Math.

M.S., Northwestern, '85; Instr. in Math., Wisconsin, '86-9; Asst. Prof., '89-'92.

- *Partial Diff. Equations of Math. Physics. ii, 38.
- *Hydrodynamics. ii, 38.

ERNEST B. SKINNER, Instr. in Math.

A.B., Ohio, '88; Instr. in Math., Amity, '88-'91; Fel. in Math., Clark, '92.

- *Higher Trigonometry. ii, 19, F.-Jun.
- *[Quaternions. ii, 38.]

EDWARD B. VAN VLECK, Instr. in Math.

A.B., Wesleyan, '84; Fel. in Physics, Johns Hopkins, '86-7; Instr. in Math., Wesleyan, '87-'90; Ph.D., Göttingen, '93.

- *Theory of Functions. iii, 38.

YALE.

16 Graduate Students (incl. Astron.), 1894-5.

Math. Club holds fortnightly meetings. Hill-house Math. Coll., 3000 vols.

H. A. NEWTON, Prof. of Math.

A.B., Yale, '50; LL.D., Mich., '68.— Meteors, comets, temperature, metric system, transcendental curves.

Analytical Statics. —, —?

- *Integ. Calculus and Mechanics. iii, 32.

J. E. CLARK, Prof. of Math.

A.B., Mich., '56; A.M., Mich. and Yale, '73; Prof. of Math., Antioch.

- Determinants and Diff. Equations. ii, 32.

J. W. GIBBS, Prof. of Math. Physics.

A.B., Yale, '58; Ph.D., same, '63; LL.D., Williams, '93.— Thermodynamics, theory of light, Vector analysis.

Vector Analysis (el.). ii, 12, O.-D.
Vector Analysis (adv.). iii, 20, Ja.-Jun.

- Multiple Algebra. i, 32.

C. B. RICHARDS, Prof. of Mechan. Eng.

A.M., Yale, '84.— Exper. on resist. of stones to crushing, warming and vent. of houses, revis. of def. in Mech. and Eng. in *Webster's Internat. Dict.*, etc.

Mechanical Engineering (adv.). Applied Mechanics, Thermodynamics, and Machine Design. —, —?

E. L. RICHARDS, Prof. of Math.

A.B., Yale, '60; A.M., same, '67.

- *Navigation and Nautical Astron. ii, 32.

A. J. DUBOIS, Prof. of Civ. Eng.

Ph.B., Yale, '69; C. E., '70, and Ph.D., '73; Prof. Eng., Lehigh.— El. of graphic statics, hydraulics, hyd. motor, and steam engine.

Civil Engineering (adv.). Mechanics Applied to Engineering, Construction and Design. —, —?

WM. BEEBE [see 17].

- *Surveying. iii, 16, F.-Jun.

A. W. PHILLIPS, Prof. of Math.

Ph.B., Yale, '73, and Ph.D., '77.— Orbits, math. curves and their graphic representation, esp. by machines.

- *Analyt. Geom. ii, 32.

S. E. BARNEY, Asst. Prof. of Civ. Eng.

Ph.B., Yale, '79, and C. E., '85.

*Railway Surveying. 3 wks. in Sept.

JOSEPH BOWDEN, Tutor in Math.

A.B., Yale, '91.

*Algebra. ii, 32.

J. P. PIERPONT, Lect. in Math.

Ph.D., Vienna, '94.—Galoisian theory of Equations, theory of elliptic functions.

Intro. to General Analysis. iii, 32.

Elliptic Functions. ii, 32.

H. A. BUMSTEAD, Instr. in Physics.

A.B., Johns Hopkins, '91.

Dynamics of a Rigid Body. i, 32.

17. ASTRONOMY.

BROWN.

1 Graduate Student, 1894-5.

WINSLOW UPTON, Prof. of Astron. and Dir. of Ladd Observ.

A.B., Brown, '75; A.M., Cincinnati, '77; Asst., Harv. Col. Observ., '77-9; Asst. Engin., U. S. Lake Survey, '79-80; Computer, U. S. Naval Observ., '80-1; Computer and Junior Prof. of Meteorol., U. S. Sig. Office, '81-3.

*Practical Astronomy (adv.). iii, 33.

[Individual courses may be arranged for.]

CALIFORNIA.

4 Graduate Students, 1894-5.

The Lick Observatory, with its facilities for advanced astronomical work, is a department of the University. A limited number of graduate and special students are admitted there. At Berkeley there is a students' observatory and the following courses will be given. Hearst fel. in Astronomy.

ARMIN O. LEUSCHNER, Asst. Prof. of Astron. and Geodesy.

A.B., Michigan.

*Practical Astronomy (adv.). i, 32.

*Hist. of Astronomy. iii, 16, Au.-D.

*Method of Least Squares. ii, 16, Au.-D.

*[Mechanical Quadratures. iii, 16, Ja.-My.]

*Interpolation. iii, 16, Ja.-My.

*Theoretical Astron. iv, 32.

CHICAGO.

17 Graduate Students, 1894-5.

2 fellowships.

GEORGE E. HALE, Assoc. Prof. of Astronomy and Dir. of the Observ.

S.B., Mass. Inst. Technol., '90; Director of Kenwood Astro-Physical Observatory, '90; Prof. of Astro-Physics, Beloit, '91; Lect. in Astro-Physics, Northwestern, '91.

Stellar Spectroscopy. iv, 12, O.-D.
Solar Physics. iv, 12, Ja.-Mar.; also Ap.-Jun.

T. J. J. SEE, Instr. in Astronomy.

A.B., Missouri Univ., '89, and A.M., '92; Ph.D., Berlin, '92.

Gauss's Method of Determining Secular Perturbations. iv, 12, Jul.-S.

Theory of Attraction and Figures of Heavenly Bodies. iv, 12, Jul.-S.
Research in Theory of Tides. iv, 12, O.-D.

KURT LAVES, Asst. in Astronomy.

Ph.D., Berlin, '91; Asst., Royal Observatory, Berlin, '93.

Partial Differential Equations. iv, 12, O.-D.

Dynamics of a System. iv, 12, Ja.-Mar.

Chicago — Continued.

Theory of a Rotating Body. iv, 12, Ap.—Jun.
 Special Perturbations. iv, 12, Ap.—Jun.

COLUMBIA.

Astronom. Obs. contains a 46 in. transit; combined transit and zenith instrument; an equatorially mounted refractor of 5 in. apert., with spectroscope; a diffraction spectroscope with grating; an equal. refracting telescope of 13 in. apert. with correcting lens for photographic work, etc.

JOHN K. REES, Prof. of Astronomy and Director of Obs.

A.M.; E.M., Columbia, '75; Ph.D.; Asst. in Math., Columbia, '73-6; Prof. of Astron., Washington Univ., '76-81; Prof. Pract. Astron. and Geodesy, Columbia, '81-'92. — Ed. *School of Mines Quarterly*, '82-8, solar eclipses, comets and meteors, Rutherford reductions.

*Spher. and Pract. Astron. (with Mr. Monell). ii, 30, and obs. work, ii, 30.

Spher. and Pract. Astron. (adv.) with Prof. Jacoby). ii, 60, and obs. work, iv, 60.

*Geodesy. ii, 45.

HAROLD JACOBY, Adj. Prof. of Astron.

Asst. Astr. U. S. Eclipse Exped. to W. Africa, '89-'90. — Ed. *Bull. N. Y. Math. Soc.*, Astronom. photog., star clusters, stellar parallax.

Theoretical Astron. i, 60, and computations.

Theory and Methods of Reduction of Photographic Star Plates. i, 60, with practical work.

CORNELL.

2 Graduate Students, 1894-5.

1 fel. \$500 and 1 grad. schol. \$300 assigned to Dept. Math. and Astron.

ESTEVEAN A. FUERTES, Director of Col. of Civil Eng. and Prof. of Civil Eng.

Director N. Y. State Weather Bureau. — Municipal and govt. reports.

*Spherical Astron. Observations. ii, 12.

D. A. MURRAY [see 16].

*Descriptive Astron. ii, 32.

*Physical and Math. Astron. ii, 32.

HARVARD.

Astronom. Obs., founded for scientific research, equipped with instruments of the first class, a library of over 14,000 works, and has funds for maintenance, increase, and publication. In the Henry Draper memorial dept. an extensive study of spectra and other phys. props. of stars is carried on. Boyden fund sustains observations at great elevation. Photographic study of stars especially provided for. Facilities freely offered to astronomers; also sometimes to special students in astron., who should apply to E. C. Pickering, Director.

JOHNS HOPKINS.

16 Graduate Students, 1894-5.

The Department is conducted on plans outlined by Prof. Simon Newcomb, who acts as general adviser. Equipment consists of an equatorial telescope of 9½ inches aperture, a meridian circle of 3 in. aperture with circles 2 ft. in diam. reading to seconds, a small meridian transit instrument, and several others.

C. L. POOR, Assoc. in Astron.

Ph.D., Johns Hopkins, '92.

CHARLES P. MATTHEWS, Instr. in Math.

M.E. (in Elec. Eng.), Cornell, '92.

- *Theory of Dynamo and Motor. ii, 9, Ap.-Jun.
*Application of Photometry to Electric Lighting. i, 11, Ja.-Mar.

JOHN S. SHEARER. Instr. in Physics.

B.S., Cornell, '93; Asst. in Physics, '93-4.

- *Theory of Light (adv.). iii, 32.

HARVARD.

12 Graduate Students, 1894-5.

[Courses marked R are open to Radcliffe Graduate Students.]

Jefferson Physical Lab. devoted to instruct. and research. Isolated tower upon an independent foundation for investigations requiring great stability or height. Non-magnetic, constant temp. and photogr. rooms. Tyndall sel. of \$500.

JOHN TROWBRIDGE, Prof. of Physics and Dir. Jeff. Phys. Laboratory.

S.B., Harv., '65; Sc.D., same, '73.

- *Light. Lect. i, lab. vi-viii, 31.
*Electrodynamics, Magnetism, Electromagnetism (with Mr. Sabine and Mr. LeClear). Lects. ii, lab. vi-viii, 31.
Electrodynamics, with spec. ref. to periodic currents of electricity. Lab. ix, 31.
Spectrum Anal. Research. xii, 31.

B. O. PEIRCE, Hollis Prof. of Math. and Nat. Philos.

A.B., Harv., '76; Ph.D., Leipzig, '79.

- *Electrostat., Electrokinemat., Electromagnetism. Lects. i, lab. vi-viii, 31.
R) Research in Mathemat. Physics.
R) Math. theory of Electrostatics and Electrokinematics. —, —?

E. H. HALL, Asst. Prof. of Physics.

Ph.D., Johns Hopkins, '81.—Effect of mag. force on the equipotential lines of an electric current ("Hall effect"), thermal conductivity of nickel and iron, cylinder condensat. in steam engines.

- *Thermodynamics (el.). ii-iii, 16, O.-Ja.
*Thermodynamic Potential. ii-iii, 15, F.-Jun.

Harvard — Continued.

R) Math. theory of Electrodynamics and Electromagnetism. —, — ?
Research in Electromagnetism and Heat Conduction.

WALLACE C. SABINE, Instr. in Physics.

A.B., Univ. Ohio, '86; A.M., Harv., '88.

*Light and Heat. Lects. ii, lab. vi-viii, 31.

JOHNS HOPKINS.

80 Graduate Students, 1894-5.

Physical Lab., with constant temp., non-magnetic, and engine rooms, and those for optical work. Special facilities for work in light, electricity, and magnetism. Weekly meetings to discuss journals.

H. A. ROWLAND, Prof. of Physics and Dir. Phys. Lab.

C.E., Rensselaer Polytech. Inst., '70; Asst. Prof., same, '72-5; Ph.D. (hon.), Johns Hopkins, '80.

Thermodynamics, Heat Conduction and Phys. Optics (lects.). iv, 30.
[Electricity and Magnetism (lects.). iv, 30.]

J. S. AMES, Assoc. Prof. of Physics.

Ph.D., Johns Hopkins, '90.

Physical Seminary. i, 30.

Applica. of Dynamics to Physical Chem. ii, 15, O.-J.

Selected Topics in Spectroscopy. ii, 15, F.-My.

Original work in Lab. (with Prof. Rowland).

LOUIS DUNCAN, Assoc. Prof. of Electricity.

Ph.D., Johns Hopkins, '85.

Applied Electricity (el.). iii, 30.

Applied Electricity. ii, 30.

Seminary (with Prof. Rowland). ii, 30.

H. S. HERING, Assoc. in Elec. Engineering.

M.E., Univ. of Penn., '86.

Electr. Measurements. ii, 30.

H. G. GEER, Instr. in Mechan. Engineering.

M.E., Cornell, '93.

Mechanics of Engineering. ii, 30.

Steam and Hydraulic Engineering. iii, 30.

Mechan. Drawing. vi, 30.

LELAND STANFORD, JR.

2 Graduate Students, 1894-5.

FERNANDO SANFORD, Prof. of Physics.

B.S., Carthage, '79, and M.S., '82; Prof. Physical Science, Mt. Morris, '79-'82; Prof. Physical Science, Lake Forest, 90-1.—Conductivity of Copper Wire in various Dielectrics, etc.

*Optics and Chem. Physics. ii, 32.

*General Physics. iii, 32.

Orig. Problems in Lab.

Special advanced research.

MERRITT E. TAYLOR, Asst. Prof. of Physics.

B.S., Northwestern, '83, and M.S., '84; Asst. in Chemistry, '83-4; Instr. in Math., '84-6.

*Electr. and Magnet. Meas. iii, 32.

MICHIGAN.

10 Graduate Students, 1894-5.

HENRY S. CARHART, Prof. of Physics and Dir. of Phys. Lab.

A.B., Wesleyan, '69, and A.M., '72; LL.D., same, '93.—Primary Batteries, Elements of Physics, University Physics, Electrical Measurements.

*Dynamo Electric Machinery. iii, 17, F.-Jun.

*The Alternate Current Transformer: Fleming. ii, 17, O.-F.

The Theory of Heat: Preston. ii, 17, O.-F.

PROF. CARHART, ASST. PROF. PATTERSON, AND DR. GUTHE.

- *Electrical Measurements. ii, lab. iii, 17, O.-F.

GEO. W. PATTERSON, JR., Asst. Prof. of Physics.

A.B., Yale, '84; B.S., Mass. Inst. Tech., '87; A.M., Yale, '91.—Trans. Palaz's Photometry, Electrical Measurements.

- *Mathematical Electricity: Mascart and Joubert. iii, 17, O.-F.; ii, 17, F.-Jun.

Advanced work in Photometry. i-ii, 17, F.-Jun.

JOHN O. REED, Asst. Prof. of Physics.

Ph.B., Mich., '85, and Ph.M., '93.

- *Theory of Light: Preston. ii, lab. ii, F.-Jun.
- Advanced Lab. Work in Light. ii, 34, O.-Jun.

KARL E. GUTHE, Instr. in Physics.

Ph.D., Marburg, '92.

- *Advanced Lab. Work in Electr. and Magnetism. ii, 17, F.-Jun.
- Theory of Potential and its Applications. ii, 17, F.-Jun.

MINNESOTA.

10 Graduate Student, 1894-5.

FREDERICK S. JONES, Prof. of Physics.

A.B., Yale, '84.

Adv. Physics. Special problems with experimental investigations. —, — ? Individual research guided.

HENRY T. EDDY, Prof. of Engineering and Mechanics.

A.B., Yale, '67; Ph.B., Sheffield S. S., '68; C.E., Cornell, '70; Ph.D., same, '72; Asst. Prof. Math. and Civil Eng., Cornell, '69-73; Prof. Math. and Civil Engineering, Cincinnati, '74-90; Pres., Rose Poly. Inst., '91-4.

Applied Mechanics, incl. Hydraulics. iv, S.-Jun.

Theory of Water Motors. v, N.-Mar.

Thermodynamics. v, S.-Jun.

Theory of Dynamos and Motors. v, Mar.-Jun.

Differential Equations and Theory of Alternating Currents. ii, S.-Jun.

NEW YORK.

D. W. HERING, Prof. of Physics.

C.E., Yale, '78; Fel. in Engineering, Johns Hopkins, '76-8; Prof. Math., West Md. Col., '80-4; Prof. Physics, West. Univ. of Pa., '84-5.—Electrical units, church acoustics, modern views of physics.

Magnetism and Electricity (minor course). ii, 30.

Mechanics (minor course). ii, 30.

Magnetism and Electricity (major course). ii, 30.

Mechanics (major course). ii, 30.

Thermodynamics. ii, 14, F.-My.

PENNSYLVANIA.

1 Graduate Student, 1894-5.

1 Fellowship \$600, open to Grad. of Univ. of Pa.

GEORGE F. BARKER, Prof. of Physics.

M.D., Alb. Med. Col., '63; Prof. Physiolog. Chem., Yale, '66-73.—Ed. *Jour. Franklin Inst.*, '73-5, Assoc. ed. *Am. Jour. Sci.* since '77, textbooks in Chem. and Physics.

Theory and Practice of Spectroscopy. ii, 15, O.-F.

Const. and Prop. of Matter. i, 15, O.-F.

Wave Motion and Radiation. ii, 15, F.-My.

Electr. and Magnet. ii, 15, F.-My.

Lab. Phys. Investigations.

Lab. in Absolute Phys. Measurements (with Asst. Prof. Goodspeed).

ARTHUR W. GOODSPEED, Asst. Prof. of Physics.

A.B., Harv., '84; Asst. in Physics, Univ. of Pa., '84-5; Instr., '85-9; Ph.D., '90.

Pennsylvania — Continued.

Theoret. Dynamics. ii, 15, O.-F.
 Thermodynamics. i, 15, F.-My.
 Theory of Potential. i, 15, F.-My.

HORACE C. RICHARDS, Instructor in Physics.

A.B., Univ. of Pa., '88; Ph.D., same, '91.
 Theory of Sound. ii, 15, O.-F.

PRINCETON.

4 Graduate Students, 1894-5.

Physical Lab. is supplied with apparatus for adv. study and research. Open throughout the yr. to Grad. Students. A skilled mechanic at the service of the dept. for construct. of special apparatus. An isolated building provided for electrical and magnetic meas.

C. F. BRACKETT, Prof. of Physics.
 Math. Theory of Electricity and Gen. Electr. viii, 32.
 Theory of Electricity. iv, 16.
 [Also nine more technical courses].

W. F. MAGIE, Prof. of Physics.

Ph.D., Berlin, '85.—Electrical discharge, atmospheric electr., surface tension of liquids, theory of temp.

*Theory of Heat. ii, 16, F.-My.
 *[Theory of Light. ii, 16, F.-My.
 *Theory of Electricity (el.). ii, 16, O.-Ja.
 Lab. Practice. 32.
 Math. Physics. 32.

F. A. WATERMAN, Instr. in Physics.

A.B., Princeton, '88; Prof. of Physics, Purdue, '91-3.

Mechanics and Heat (el.). Lab. viii, O.-Ja.
 Electricity and Magn. (el.). Lab. viii, F.-My.
 Heat and Light (adv.). Lab. xii, O.-Ja.
 Electricity and Magn. (adv.). Lab. xii, F.-My.
 Special investigations. Lab., 32.

. RADCLIFFE.

[See Harvard Courses marked R.]

WALLACE C. SABINE.

*Light and Heat. ii and lab. vi-viii, 31.

VANDERBILT.

4 Graduate Students, 1894-5.

JOHN DANIEL, Prof. of Physics.

A.B., Univ. Ala., '84, and A.M., '86; Asst. Prof. Physics, same, '84-6; Univ. Scholar in Physics, Johns Hopkins, '87; Adj. Prof. Phys., Vanderbilt, '90.—Papers on electrolysis, and electrolytic polarization.

*Electricity and Magnetism. iv, 16.
 *Electricity and Magnetism. iii, 32.
 *Exper. Electricity. vi, 32.

WESTERN RESERVE.

3 Graduate Students, 1894-5.

F. P. WHITMAN, Prof. of Physics and Astronomy.

A.M., Brown, '77; Prof. of Physics, Rensselaer Pol. Inst., '80-5.

*Electrical Measurements. i, lab. vi, S.-Jun.
 *Physical Optics. ii, lab. iii, F.-Jun.

WISCONSIN.

JOHN E. DAVIES, Prof. of Electricity and Magnetism and Math. Physics.

A.M., Lawrence, '62; M.D., Chicago Med. Col., '68; LL.D.; Prof. Nat. Hist. and Chem., Wis., '68-'75; Prof. of Astron. and Physics, '75-9.

*Math. Theory of Sound. iii, 38.
 *Math. Theory of Electricity. iv, 38.
 *Math. Physics. v, 38.

YALE.

8 Graduate Students, 1894-5.

Sloane Phys. Lab., spec. devoted to invest. and research in Physics. Rooms for optical and photographic work, esp. in spectrum. Engine room, dynamos and apparatus for electric and magnetic work.

A. W. WRIGHT, Prof. of Exp. Physics.

A.B., Yale, '59, and Ph.D., '61; Prof. Nat. Phil. and Chem., Williams.—Polarization and spectrum of zodiacal light, comets, sun's corona, gases in meteorites, electric deposition of metals, ozone.

*Physics (el.). Lab. ii, 32.
Physics (adv. and research).

objectives, esp. telescopic, composition of the sun.

Detailed treatment of some dept. of Physics, with lab.

C. S. HASTINGS, Prof. of Physics.

Ph.B., Yale, '70, and Ph.D., '73; Assoc. Prof. Physics, Johns Hopkins.—Refraction of light,

J. W. GIBBS [see 16].

Electricity and Magnetism. ii, 32.
[Electro-Magnetic Theory of Light. ii, 32.]

19. CHEMISTRY.

[For Mineralogy, see under 21.]

BROWN.

2 Graduate Students, 1894-5.

JOHN H. APPLETON, Prof. of Chem.

A.B., Brown, and A.M., '69; Instr. Chem., '63-8. — Chem. Philos., Beginners' Hdbk. Chem., Metals of Chem., Carbon Compounds.

*Quantitative Anal. vi-xii, 33.
*Organic Chem. vi-xii, 33.
Assaying. vi-xii, 21, Ja.-Jun.
Medical Chem. vi-xii, 21, Ja.-Jun.
Agricul. Chem. vi-xii, 21, Ja.-Jun.
Scouring and Dyeing of Wool. vi-xii, 10, Ap.-Jun.

BRYN MAWR.

4 Graduate Students, 1894-5.

1 fel., \$525.

EDWARD H. KEISER, Prof. of Chem.

S.B., Swarthmore, '80, Asst. in Chem., '80-1, and S.M., '81; Fel., John Hopkins, '82-4, and Ph.D., '84; Asst. in Chem., '84-5. — Various papers in *Am. Chem. Jour.*

Theoret. and Physical Chem. ii, 30.

ELMER P. KOHLER, Assoc. in Physics.

A.B., Muhlenberg, '86, and A.M., '89; A.M., Johns Hopkins, '90, Fel., '91-2, and Ph.D., '92. — Papers in *Am. Chem. Jour.*

Organ. Chem. (adv.). i, 30.

HAROLD HEATH, Instr. in Histol.

A.B., Ohio Wesleyan, '93; Asst. in Biology,
same, '91-3; Prof. of Nat. Sci., Univ. of the
Pacific, '93-4.

- *Special Courses in Histol. (adv.). ii-
v, 32.

MICHIGAN.

10 Graduate Students, 1894-5.

VOLNEY M. SPALDING, Prof. of Bot.

A.B., Michigan, '73; Ph.D., Leipzig, '94.—
Intro. to study of botany, traumatropic curva-
ture of roots.

- *Morphol. and Class. of Fungi. iii-
v, 17, O.-F.
*Morphol. and Class. of Phanerogams.
iii-v, 17, F.-Jun.
Original work in Morphology and
Classification.

F. C. NEWCOMBE, Asst. Prof. of Bot.

B.S., Michigan, '90; Instr. in Botany, same,
'90-2; Ph.D., Leipzig, '94.—Spore dissemin-
ation in Equisetum, Effect of mechanical
resistance, plant tissues, etc.

- *Cell Morphol. and Physiol. iii-v,
17, O.-F.
*Vegetable Physiol. iii-v, 17, F.-Jun.
Original work in Physiology.

L. N. JOHNSON, Instr. in Botany.

A.B., Wesleyan, '84; A.M., Harvard, '92.—
Notes on some species of Microsterias, new
and rare Desmids of U. S.

- *Cryptogamic Botany — fresh water
and marine Algae. iii-v, 17, O.-F.
Fungi, incl. methods of culture.
iii-v, 17, F.-Jun.

JACOB E. REIGHARD, Prof. of Animal
Morphology.

Ph.B., Mich., '82; Instr. in Zoöl., same,
'86-7; Act. Asst. Prof. Zoöl., '87-8; Asst.
Prof., '89.

- *Comp. Embryology and Anatomy of
Vertebrates. v, 34, O.-Jun.
Current lit. of Animal Morphology.
i, 34, O.-Jun.
Original work in Animal Morphology.
34, O.-Jun.

DEAN C. WORCESTER, Asst. Prof. of
Animal Morphol. and Curator of
the Museum.

A.B., Mich., '87; Asst. in Botany, '87-'90.—
Birds and Mammals of Philippine Islands.

- *Evolution of species and their geo-
graphical distribution. iii, 34, O.-
Jun.
Study of Special Groups.

FRANK R. LILLIE, Instr. in Invert.
Zoöl.

A.B., Toronto, '91; Reader in Embryology,
Chicago, '93-4, and Ph.D., '94.—Contrib. to
Journal of Morphology.

- *Invert. Morphology. iii, 34, O.-Jun.
*Field Club Work. iii, 34, O.-Jun.

W. H. LEWIS, Asst. in Vert. Morphol.

B.S., Mich., '94.

Mammalian Anatomy. v, 34, O.-
Jun.

W. P. LOMBARD, Prof. of Physiol. and
Histology.

A.B., Harv., '78; M.D., same, '81; Asst. in
Physiol., Col. Phys. and Surg., N.Y., '88-9;
Asst. Prof. Physiol., Clark, '89-'92.—Arts. on
voluntary muscular contractions in *Journal of*
Physiol., etc.

Michigan — Continued.

- *Physiology. v, 34, O.—Jun.
- *Physiology. Lab., i, 17, O.—F., or F.—Jun.
- *Physiological Exper. i, 17.
- Physiological Research. 34, O.—Jun.

F. G. NOVY [see 19].

Lab. work in Bacteriology. x, 12,
O.—D., Ja.—Ap., or Ap.—Jun.

G. CARL HUBER, Asst. Prof. of Histol.

M.D., Mich, '87; Asst. Demonstrator Anat.,
'87-9.—Lab. guide for work in Histol.

- *Vertebrate Histol. v, 34, O.—Jun.
- *Methods of Vert. Histol. ii, 17, F.—Jun.
- Micros. Anat. of Brain and special sense organs of Verts. (esp. man). v, 17, F.—Jun.

MINNESOTA.

Animal Biology, 6; Botany, 11;—Graduate Students, 1894-5.

HENRY F. NACHTRIEB, Prof. of Animal Biology.

B.S., Univ. of Minn., '82; Fel. Biology and Asst. Biol. Lab., Johns Hopkins, '82-4; State Zoologist of Geol. and Nat. Hist. Survey.—Reports on Zoological survey of Minn.

Research in Vert. and Invert. Embryol. and Morphol. 36.
Individual lab. work directed. 36.

CONWAY MACMILLAN, Prof. of Bot.

A.B., Univ. of Neb., '85; Asst. Geologist, U. of Neb., '85-6; A.M., '86; Instr. in Botany, Univ. of Minn., '87; Asst. Prof. of Botany, '90; State Botanist Geol. and Nat. Hist. Survey.—The Metaspermæ of the Minnesota Valley, other reports and articles, Ed. *Quarterly Bulletin*.

- Comp. Gametophytic Anatomy and Embryology. iv, 12, S.—N.
- Comp. Sporophytic Anatomy and Embryology. iv, 24, N.—Jun.
- Phytodynamics and Oecology. iv, 12, S.—N.

Phytocytology, structural and dynamic. iv, 24, N.—Jun.
Experimental Embryology. Organogeny. 36.
Research in selected lines. 36.

NEW YORK.

CHAS. L. BRISTOL, Prof. of Biology.

M.S., N.Y.U., '86; Fel., Clark, '92-3; Senior Fel., Chicago, '93-5.

Invert. Morphology. ii, 30.

PENNSYLVANIA.

24 Graduate Students, 1894-5.

Heyden and Leidy Libs. of Geol., Palaeontol. Zool. and Bot.

WILLIAM P. WILSON, Prof. of Botany.

Asst. in Botany, Harv., '74-8; B.S., Lawrence S.S., '78; Sc.D., Tübingen, '80.

Plant Anat. vi, 15, F.—My.
[Plant Physiol. vi, 15, F.—My.]

———, Prof. of Comp. Embryol.

Comp. Histol. xii, 15, O.—F.
Comp. Embryol. xii, 15, F.—My.

HORACE JAYNE, Prof. of Biol., and Dir. Wistar Inst. of Anatomy and Biol.

A.B., Univ. of Pa., '79; M.D., same, '82; Asst. Instr. in Biol., '83; Prof. Vert. Morphol., '84; Dean of College, '89-94; Ph.D., Franklin and Marshall, '93.—Monstrosities in N.A. Cleoptera, Revision of N. A. Dermeotidae.

Osteol. of Mammalia. iv, 30.

JOHN M. MCFARLANE, Prof. of Gen. Biol.

B.S., Edinburgh, '79; Instr. in Botany, '79; Prof. Botany, Royal Dick Col., '81; Univ. Asst. Lect. (Edin.), and Curator Herbarium, Royal Botanic Garden, '83; Asst. Prof., Edinburgh, '89.—Minute structure of plant hybrids, etc.

Comp. Morphol. of leading nat. orders of plants. xii, 30.

PRINCETON.

4 Graduate Students, 1894-5.

¹ *fellowship of \$400 and 1 giving free use of table at U. S. F. C. station, Woods Holl.*

GEORGE MACLOSIE, Prof. of Biology.

LL.D., London; D.Sc., Queens Univ. —
Element. Botany, Investigations on Diptera.

Animal Physiology and Histology.
iii, F.-Jun.

WISCONSIN.

1 Graduate Student, 1894-5.

EDWARD A. BIRGE, Prof. of Zoology.

A.B., Williams, '73; Instr. in Nat. Hist., Wisconsin, '76-9; Ph.D., Harvard, '78.—Disease germs, bacteria, etc.

*Adv. Invert. Zool. (with Dr. Marshall). S.-Jun.

CHARLES R. BARNES, Prof. of Botany.

A.B., Hanover, '77; Prof. Bot. and Geol., Purdue, '80-5; Ph.D.—Botanical studies, mosses.

*Vegetable Organogeny and Embryol. v, 38.

*Vegetable Physiology. v, 38.

*Bryology. v, 38.

HARRY L. RUSSELL, Asst. Prof. of Bacteriology.

A.B., Wisconsin, '88; Fel. in Biol., same, '88-'90; Ph.D., Johns Hopkins, '92; Fel. in Biol., Chicago, '92-3.

*Adv. Bacteriology. v, 19.

WILLIAM S. MILLER, Instr. in Vertebrate Anat.

*Adv. Histology. S.-Jun.

WILLIAM S. MARSHALL, Instr. in Biol.

A.B., Swarthmore, '88; Ph.D., Leipzig, '92.

*Invert. Embryology. v, 19, F.-Jun.

YALE.

10 Graduate Students, 1894-5.

D. C. EATON, Prof. of Botany.

A.B., Yale, '57, and A.M., '64.—Ferns and mosses.

Systematic Bot. (Phænogams). —, —?

*Bryology. ii, 32.

W. A. SETCHELL, Asst. Prof. of Biol.

A.B., Yale, '87; A.M., Harv., '88, and Ph.D., '90.—Struct. and devel. *Tnomeya*, Life Hist. *Saccorhiza*.

Microscopic Anat. of Phænogamous Plants. iii, 1st hf. yr

Element. Vegetable Physiology. iii, 2d hf. yr.

Morphology and Devel. of Cryptogamous Plants. iii, 32.

Mycology and Phycology. iii, 32.

A. E. VERRILL, Prof. of Zoology.

S.B., Harv., '62; A.M., same, '67.—Anatomy, taxonomy, and distrib. animals, esp. Am. inverts.

Zoology (lab., recit., and lects.). 4 mornings weekly.

S. I. SMITH, Prof. of Comp. Anat.

Ph.B., Yale, '67; A.M., same, '87.—Anatomy, devel., taxonomy, and distrib. of crustacea.

*El. Anat. and Histol. Lab. iv, 12, O.-D.

*Comp. Anat. and Gen. Biol. Lab. vi, 20, Ja.-Jun.

Comp. Anat. and Gen. Biol. (adv.). Lab. open 5 days per wk.

R. H. CHITTENDEN, Prof. of Physiol. Chem.

Ph.B., Yale, '75; Ph.D., same, '80; Instr. Phys. Chem., same, '76-'82.—Ed. *Studies fr. Lab. Physiol. Chem.*, Yale, '84-9; Assoc. ed. *Jour. of Physiol.*, origin, action, and composition of var. chem. subs. in animal body, esp. action of digestive juices.

Physiol. Chem. and Physiology. Research.

*Physiology. i, 32.

*Physiol. Chem. iv, 20, Ja.-Jun.

C. E. BEECHER, Asst. Prof. of Palæontology.

B.S., Mich., '78; Ph.D., Yale, '89.—Brachiopoda, sponges, corals, crustacea.

Invertebrate Palæontology. Daily.

J. W. SEAVER, Assoc. Dir. of Gym.

A.B., Yale, '80; M.D., same, '85.—Physical culture.

*Physiology. Hygiene. i, 32.

W. S. ANDERSON, Assoc. Dir. of Gym.

M.D., West. Res., '83.—Several books on physical training.

*Theory of Gymnastics. History, Means, Pedagogy. i, 32.

21. GEOLOGY AND GEOGRAPHY.

[Including Palaeontology (in part), Lithology, and Mineralogy. See also 19 and 20.]

BRYN MAWR.

Dept. opened 1895-6.

FLORENCE BASCOM, Reader in Geology (*elect*).

B.Sc., Mich., '84, and A.M., '87; Ph.D., Johns Hopkins, '93; Instr. in Geol., Ohio State Univ., '93-5.

One grad. course, open to grad. students in Chemistry. i, 30, with lab. and field work.

*One post-major course. ii, 30.

[No more definite announcements can be made.]

CALIFORNIA.

12 Graduate Students, 1894-5.

Remarkable opportunities offered for actual work in the field. 1 fel. in Mineralogy, \$500.

JOSEPH LECONTE, Prof. of Geol. and Natural Hist.

A.M., Georgia; M.D., New York; B.S., Harvard; LL.D., Georgia.

Lects. on Mountain Structure, Organic Evolution in Geol., Quaternary Geol., the Glacial Epoch in Cal. ii, 32.

ANDREW C. LAWSON, Assoc. Prof. of Geol. and Mineral.

A.M., Toronto; Ph.D., Johns Hopkins.

Research in Inorganic Geol.

SAMUEL B. CHRISTY, Prof. of Mining and Metallurgy.

Ph.B., Univ. of Cal.

Ore Dressing. ii, 32.

Research in Ore Dressing and Metallurgy of Gold and Silver.

JOHN C. MERRIAM, Instr. in Palaeont.

Ph.D., Munich.

Research in Palaeont.

CHICAGO.

24 Graduate Students, 1894-5.

3 fellowships.

THOMAS C. CHAMBERLIN, Head Prof. of Geology.

A.B., Beloit, '66, and A.M., '69; Ph.D., Michigan and Wisconsin, '82; Pres., Wisconsin, '87-'92; LL.D., Michigan, Beloit and Columbian, '87.

*Principles and Methods of Geology. v-x, 18, O.-F.

A.B., Harvard, '61, and A.M., '64.

Adv. work in Mineralogy. 34, O.-Jun.

MINNESOTA.

12 Graduate Students, 1894-5.

Geological Museums embrace colls. of Geol. Survey of the State and study colls. in Petrology and Palaeontology, esp. in anc. eruptives and Lower Paleozoic faunas of northeastern states.

CHRISTOPHER W. HALL, Prof. of Geology and Mineralogy, and Dean of Col. of Eng., Metallurgy and Mechanic Arts.

A.B., Middlebury, '71.—Educational and geological papers.

Economic Geol., hist. and devel. of mineral discovery in Am. —, —?

Granitic rocks of Minn. —, —?

Lower Paleozoic formations of S. E. Minn. —, —?

Cambrian and Lower Silurian faunas of S. E. Minn. —, —?

Local glacial phenomena. —, —?

CHARLES P. BERKEY, Instr. in Mineralogy.

B.S., Univ. of Minn., '92, and M.S., '93.—Geological and mineralogical papers.

Microchemical methods in Mineralogy and their applica. —, —?
 Optical characters and staurescopic determinations. —, —?
 Mathematical Crystallography. —, —?
 Original problems.

ARTHUR H. ELFTMAN, Scholar in Geol., and Asst. in Lab.
 B.S., Univ. of Minn., '92, and M.S., '93.
 Pre-Cambrian eruptives of N. E. Minn. —, —?

NEW YORK.

JOHN J. STEVENSON, Prof. of Geology.
 Ph.D., N. Y. U., '67; Asst. Ohio Geol. Survey, '71-4; U. S. Geol. Survey, '73-4, '78-'80; Asst. 2d Geol. Surv. Penn., '75-8, '81-2; LL.D., Col. N. J., '93.— Geology, Carbonif. and Cretaceous.
 Economic Geology. iii, 33.
 General Geology. iii, 33.
 Principles of Geology. ii, 28.

PENNSYLVANIA.

22 Graduate Students, 1894-5.

AMOS P. BROWN, Prof. of Mineral. and Geol.

B.S., Univ. of Pa., '86; E.M., same, '87; Instr. in Min. and Metallurgy, '89-'93, and Ph.D., '93.— Const. of Pyrite, Mineral. and Geol. subjects.

Hist. Geol. and Stratigraphy. ii, 30.
 Phys. Geol. i, 15, O.-F.
 Chem. Geol. and Metamorphism. i, 15, F.-My.
 Geol. Practicum. iv, 30.
 Math. and Phys. Crystallog. i, 15, O.-F.
 Syst. Mineral. i, 30.
 Chem. and Synthet. Mineral. i, 15, F.-My.
 Mineral. Practicum. iv, 30.

EDWARD D. COPE, Prof. of Geol. and Palaeontol.

A.M., Haverford; Ph.D., Heidelberg; Prof. of Nat. Sci., Haverford, '64-7; Prof. of Geol., Univ. of Pa., '89-'93; Prof. Zool. and Comp. Anat. '93-5.— Palaeontol. of New Mex., Vert. Palaeontol., Origin of the Fittest, Prim. Factors of Organ Evolution.

Major Course. Organography, Osteol., and Odontography of Verts., with Palaeont. Time Hist. of any Organ of Vert. iv, 30.

Minor Course. Toxon., Palaeont., and Organography of Verts. ii, 30.

PRINCETON.

2 Graduate Students, 1894-5.

WILLIAM LIBBEY, JR., Prof. of Physical Geog. and of Normal Histology, and Dir. Mus. Geol. and Archaeol.

Ph.D., Princeton, '79.— 4th ed. Smithsonian meteorol. and physical tables, physical investigation of Gulf Stream.

Relat. of Physical Geog. to Hist. of Mankind. i, 16, F.-Jun.

W. B. SCOTT, Blair Prof. of Geol.

Ph.D., Heidelberg, '80.— Palaeontol. and embryol. of verts., histor. geol., theories of evolution.

Physical Geology. ii, 32.

RADCLIFFE.

[See Harvard Courses marked R.]

W. M. DAVIS.

*[Physical Geog. of U. S. iii, 15, F.-My.]

*Physical Geog. of Europe. iii, 15, F.-My.

J. E. WOLFF.

*Petrography. ii, and lab., 31.

J. B. WOODWORTH.

*Gen. Critical Geol. ii, and lab., 31.

VANDERBILT.

4 Graduate Students, 1894-5.

JAMES M. SAFFORD [see 20].

*Economic Geol. iii, 32.

*Ore Deposits. iii, 32.

*Special field work.

PAUL M. JONES [see 20].

*Adv. Mineralogy. iii, and lab., 16.

*Petrography. iii, and lab., 16.

WESTERN RESERVE.

H. P. CUSHING, Assoc. Prof. of Geol.

M.S., Cornell, '83; Instr. in Geology and Chemistry, W. R. U., '92-3.—Petrography.

Descriptive Mineralogy and Crystallography. v, F.—Jun.

*Determinative Mineralogy. iii, S.—Ja. Petrography. —, —?

Stratigraphical and Dynamical Geology. —, —?

WISCONSIN.

1 Graduate Student, 1894-5.

CHARLES R. VAN HISE, Prof. of Geol.

B.Met.E., Wisconsin, '79, and S.M., '82; Instr. in Metallurgy, same, '79-'83; Asst. Prof., '82-4; Prof., '84-8; Prof. Archæan and Applied Geol., '88-92; Ph.D., '92; Geologist U. S. Survey of Pre-Cambrian Rocks.—Archæan and Algonkian, N. Am. Pre-Cambrian Geol., iron-bearing districts Mich. and Wis.

*Physical and Pre-Cambrian Geol. —, —?

JULIUS M. CLEMENTS, Asst. Prof. of Geol.

Ph.D., Leipzig, '90; Asst. U. S. Geol. Survey.

*Palæontology. —, —?

WILLIAM H. HOBBS, Asst. Prof. of Mineralogy and Petrology.

Ph.D., Johns Hopkins, '88; Asst. U. S. Geol. Survey. Assoc. Ed. *Amer. Nat.*, cryst. and opt. mineral., petrology, struct. geol.

*Petrology. —, —?

*Adv. Mineralogy. —, —?

YALE.

G. J. BRUSH, Prof. of Mineralogy and Dir. Sheffield Sci. School.

Ph.B., Yale, '52; A.M., same, '57; LL.D., Harv., '86.—Minerals.

Mineralogy, lab. and lect. —, —?

Lithology, microscop. petrography. —, —?

*El. Struct. and Dyn. Geol. iii, 32.

H. S. WILLIAMS, Prof. of Geology.

Ph.B., Yale, '68, and Ph.D., '71; Prof. Geol. and Palæontol., Cornell; U. S. Geol. Survey. — Palæontol., stratigraphy, gen. princip. palæontol. and histor. geol., etc.

Hist. Geol. and Palæontol. —, —?

*Geol. (gen. course). ii, 32.

*Geol. Hist. of Organisms. iii, 32.

W. H. BREWER, Prof. of Agr.

Ph.B., Yale, '52; Ph.D., Washington and Jeff., '80; Prof. Nat. Sci. in Wash. Col.—Agric. topics, esp. breeding, botany, geol. California, sanitation, gen. biol.

*Phys. Geog. ii, 32.

S. L. PENFIELD, Prof. of Mineralogy.

Ph.B., Yale, '77.

Mineralogy and Crystallog. —, —?

L. V. PIRSSON, Asst. Prof. of Inorg. Geol.

Ph.B., Yale, '82.

Mineralogy and Crystallog. —, —?

THE FUNK & WAGNALLS
Standard Dictionary
Of the English Language

IS COMPLETE: Contains 301,865 vocabulary terms, nearly 2½ times the number in any single-volume or two-volume dictionary.

The New York Herald says: "We are free to pronounce it the *most complete* and satisfactory Dictionary yet printed."

HIGHEST AUTHORITY: 247 Specialists and 500 Readers for Quotations were engaged in compiling the work of 2338 pages, at a cost of over \$960,000.

Edmund C. Stedman: "It is the most inclusive and scholarly of recent English dictionaries in not more than two volumes."

Nature, London, England, J. NORMAN LOCKYER, Editor: "It passes the wit of man to suggest anything which ought to have been done which has not been done to make the Dictionary a success."

INTRODUCTORY PRICES, \$12.00 TO \$22.00. SOLD BY SUBSCRIPTION.

Studies in History, Economics and Public Law. Edited by the Faculty of Political Science of Columbia College. *Send for list.*
Von Halle. Trusts, or Industrial Combinations, Coalitions in the United States. \$1.25.

MATHEMATICS.

- Ball.** A Short Account of the History of Mathematics. \$3.25.
Cajori, Florian, Colorado College. A History of Mathematics. \$3.50.
Chrystal. Algebra. Pt. I, \$3.75. Pt. II, \$4.00. The set, \$7.50.

- Dupuis.** Principles of Elementary Algebra, \$1.10. Elementary Synthetic Geometry of the Point, Line and Circle in the Plain. \$1.10. Elements of Synthetic Solid Geometry. \$1.60.
- Edwards, G. C.,** *Univ. of California.* The Elements of Geometry. \$1.10.
- Harkness and Morley.** A Treatise on the Theory of Functions. \$5.00.
- Loney.** Plane Trigonometry. Part I, \$1.40. Complete \$1.90.
- Puckle.** An Elementary Treatise on Conic Sections and Algebraic Geometry. \$1.90.
- Scott, C. A.,** *Bryn Mawr College.* An Introductory Account of Certain Modern Ideas and Methods in Plane Analytical Geometry. \$2.50.
- Sevenoak, F. L.,** *Stevens Institute.* American Edition of Hall and Knight's Elementary Algebra. \$1.10. Algebra for Beginners. 60 cents.
- Smith.** Elementary Treatise on Conic Sections. \$1.60. Treatise on Algebra. \$1.90. Elementary Treatise on Solid Geometry. \$2.60.
- Stringham, Irving,** *University of California.* American Edition of Charles Smith's Elementary Algebra; complete, \$1.20; briefer form, \$1.10.

SCIENCE.

- Claus (C.) and Sedgwick (H.).** Elementary Text Book of Zoology. \$8.00.
- Columbia University Biological Series.** Edited by Prof. Henry F. Osborn. I. From the Greeks to Darwin. \$2.00. II. Amphioxus and the Ancestry of the Vertebrates. \$2.50. III. Fishes, Living and Fossil. IV. The Cell in Development and Inheritance.
- Daniell.** A Text Book of the Principles of Physics. \$4.00.
- Darwin (F.).** Elements of Botany. \$1.60.
- Darwin (F.) and Acton (E. H.).** Practical Physiology of Plants. \$1.60.
- Foster.** A Text Book of Physiology. \$5.00.
- Geikie.** Class Book of Geology. \$1.10. Text Book of Geology. \$7.50.
- Gray.** The Theory and Practice of Absolute Measurements in Electricity and Magnetism. Vol. I, \$3.25; Vol. II, \$6.25.
- Hempel.** Methods of Gas Analysis. Translated by Prof. S. M. Dennis, *Cornell University.* \$1.90.
- Hertwig.** Text Book of the Embryology of Man and Mammals. By Dr. Oscar Hertwig. Translated by Edward L. Mark, *Harvard University.* \$5.25.
- Hoskins, L. M.,** *Stanford Univ.* The Elements of Graphic Statics. \$2.25.
- Huxley and Martin.** A Course of Elementary Instruction in Practical Biology. \$2.60.
- Jackson, D. C.,** *University of Wisconsin.* A Text Book on Electro Magnetism. \$2.25.
- Loney.** A Treatise on Elementary Dynamics. \$1.90.
- Minchen.** A Treatise on Statics. Vol. I, \$2.25. Vol. II, \$4.00.
- Nernst.** Theoretical Chemistry from the Standpoint of Avogadro's Rule and Thermodynamics. \$5.00.

- Nichols, Edward L.**, *Cornell University*. A Laboratory Manual of Physics and Applied Electricity. Junior Course, \$3.00; Senior Course, \$3.25.
- Orr, Henry B.**, *Tulane University*. A Theory of Development and Heredity. \$1.60.
- Ostwald**. Outlines of General Chemistry (Physical and Theoretical). \$3.50.
- Parker**. Lessons in Elementary Biology. \$2.60.
- Richardson, George M.**, *Stanford University*. Laboratory Manual and Principles of Chemistry for Beginners. \$1.10.
- Routh**. A Treatise on the Dynamics of a System of Rigid Bodies. Part I, \$3.75. Part II, \$3.75.
- Stewart**. Lessons in Elementary Physics. *New Edition*. \$1.10.
- Stewart and Gee**. Lessons on Elementary Practical Physics. Vol. I, \$1.50. Vol. II, \$2.25.
- Tarr, Ralph S.**, *Cornell University*. Economic Geology. \$3.50.
- Thompson**. Elementary Lessons in Electricity and Magnetism. \$1.40.
- Vines**. Lectures on the Physiology of Plants. \$5.00. A Student's Text Book of Botany. Two Parts, each \$2.00. Complete in one Vol., \$3.75.
- Weismann**. Essays upon Heredity and Kindred Biological Problems. Vol. I, \$2.00. Vol. II, \$1.30.
- Wiedersheim**. Manual of the Comparative Anatomy of Vertebrates. \$3.00.
- Ziwet, Alexander**, *University of Mich.* An Elementary Treatise on Theoretical Mechanics. In three parts, each \$2.25. Complete, \$5.00.

EXERCISES IN RHETORIC AND ENGLISH COMPOSITION. (ADVANCED COURSE)

BY

GEORGE R. CARPENTER,

Professor of Rhetoric and English Composition in Columbia College.

Third Edition. Cloth. Price \$1.00.

COMMENTS.

"G. R. Carpenter, Professor of Rhetoric and English Composition in Columbia College, has prepared a work under the title of 'Exercises in Rhetoric and English Composition,' in which not so much the science of rhetoric is mapped out and defined as the practical workings of the art are furnished to the student with just enough of the principles to guide him aright. The author gives an abundance of exercises for the student to study and analyze, and this is the very best kind of help. The scheme of the subject-matter is somewhat unique and novel, but it is comprehensive and lucid. The book is almost exclusively confined to consideration of the elements of style,— words, sentences, paragraphs, whole compositions. Other than students in college will find this a very serviceable and suggestive book to read and consult."—*Education*.

EXERCISES IN RHETORIC AND ENGLISH COMPOSITION. (THE HIGH-SCHOOL COURSE)

Sixth Edition. Revised and Enlarged. Price 75 cents.

"The text represents the substance of teaching which a freshman may fairly be expected to compass, and it is set forth with a clearness and directness and brevity so admirable as to make the volume seem almost the realization of that impossible short method of learning to write which has often been sought for, but never with a nearer approach to being found. . . . We do not hesitate to give unreserved commendation to this little book."—*The Nation*.

"Seldom has so much good common-sense been put within so brief a space."—*The Boston Herald*.
